

ACACIA SENEGAL & SEYAL

WE SUPPLY GUM ARABIC

Nutritech is a Malaysian-based company registered and operated by a second generation of business group. Our company trades in agricultural raw materials supplied from Africa to global markets. Our group specialises in raw Gum Arabic supplies and our experts at all levels, including traceability and raw material sourcing. Our company has its headquarters in Kuala Lumpur, set up to handle all the export and import activities regarding the supply of Gum Arabic internationally. Our company's main activity is supplying raw materials and product manufacturing to our clients. Our company is engaged in distributing their products to buyers internationally, and exports to worldwide leaders in Gum Acacia.

To meet international demand, Nutritech currently has storage and training facilities across South East Asia, which stocks a variety of Gum Arabic materials. The training plant is equipped with most modern technology and special machinery for preparing the gum in different shapes and sizes.

OUR VISION & VALUES

The company hopes to become one of the world leaders in Gum Acacia, whilst ensuring and maintaining that the company maintains strong links with the community and minimises its environmental impact. It aims to provide high quality ingredients which can be delivered at competitive prices.

OUR MISSION

1. Nutritech assures perfect continuous supply to our clients worldwide.
2. Nutritech guarantees reliable, traceable supply and top quality of raw Gum Arabic materials.
3. Nutritech facilitates ease in the chain of supply.
4. Nutritech uses well equipped laboratories and coordination with quality inspection in order to assure the excellence of quality for our customers.
5. Nutritech ensures a safe and hygienic environment in order to ensure high standards.

OUR PRODUCTS

ACACIA GUM

Acacia is the gum that is derived naturally from the acacia tree. It is known in the food and beverage industry as E414 – CAS Number: 9000-01-05. It has been used for decades as a product used for a variety of functions. It belongs to the arabinogalactan family, and is a natural, colorless and odorless additive. It can be found in the Sahel region which runs all the way from the Sudan to Tanzania.

Our company currently provides two types of Gum Arabic – Acacia Senegal (Hashab) and Acacia Seyal (Talha). Acacia Senegal (Hashab) is delivered in kibbled, sifting, mechanical powder, HPS and Kordofan cleaned raw forms. Acacia Seyal (Talha), is delivered in cleaned raw and Silica cleaned raw forms.

USES OF ARABIC GUM:

- Emulsifier in soft drinks
- Binder, emulsifying agent in Pharmaceutical drugs and cosmetics
- Adhesive, for example on postage stamps, envelopes and cigarettes
- Used in the cosmetic industry e.g. mascara, lipstick, eyeliner
- Used in the technical industry e.g. printer cartridges, paper, pesticide

OUR TRACEABILITY

Our company is involved in all levels of the harvest process. Our products are traceable through all levels of the production chain up until export. Our traceability is due to a number of criterion being met.

Our company is involved heavily in the selection of the Gum Arabic.

Our company has the biggest training and storing plants for the production of Gum Arabic. Our facility is stocked with the best mechanical equipment allowing for the production of Gum Arabic in crude, kibbled and mechanical powder forms.

Nutritech ensures the highest levels of technical assistance throughout the procurement and production process. Our staff are well trained in the traceability system and we follow the market from harvesting to collection, transportation, storage, cleaning, preparing for export and we use our standard packing of 25-50 kg in laminated Polypropylene bags.

Our facilities are subject to annual audits by our buyers, who check the conditions of our plant and follow the implementation process. All audits are taken during the month of March, and we encourage our buyers to undertake audits during this time period.

PRODUCTION CAPACITY

Our company has a capacity to clean and produce between 50 to 150 metric tons of all types of Gum Arabic per day. Our company currently has large stock quantities available to be shipped.

We have the capability of fulfilling large demands, depending on our client's needs. Starting from 2017 we will begin our new packaging system which will allow our clients to order Gum Arabic in jumbo bags starting from 1 metric ton and going up to 2 metric tons.

SUSTAINABILITY

EMPLOYEES AND THE COMMUNITY

- Our company is heavily invested in ensuring that staff are trained incredibly well in order to fulfill their duties.
- Nutritech works hard to ensure the safety of all its employees through education, training and assessment.
- Our company has solid links with the local community. Our aim is to create long term jobs for our employees.
